Guidelines for Authors

Submission of papers:

The entire submission and review process for Science APNFM 2008 is handled electronically, which shortens publication times.

All papers should be submitted electronically through info@apnfm.de .

Prior to submitting your paper, please follow the instructions on manuscript preparation given below. Please note that you must have an e-mail address to use the online submission system.

If you need any further help, please do not hesitate to contact info@apnfm.de .

Submission Language: English

English Language: Manuscripts should be proof-read and have English language errors corrected before submission as we may have to return papers due to poor language usage.

Corresponding author: Clearly indicate who is willing to handle correspondence. Ensure that telephone and fax numbers (with country and area code) are provided in addition to the e-mail address and the complete postal address. Full postal addresses must be given for all co-authors.

Original material: Submission of an article implies that the work described has not been published previously (except in the form of an abstract or as part of a published lecture or academic thesis), that it is not under consideration for publication elsewhere, that its publication is approved by all authors and that, if accepted, it will not be published elsewhere in the same form, in English or in any other language, without the written consent of the Publisher.

Please study the Guidelines for Authors carefully before sending your paper. If in doubt, please contact:

Detailed instructions on manuscript preparation and artwork instructions can be found below. The editor reserves the right to return manuscripts that do not conform to the instructions for manuscript preparation and artwork instruction.

Manuscript Preparation:

General:

Editors reserve the right to adjust style to certain standards of uniformity. Please use Word or Word

Perfect. Please send a .doc or .rtf – File with a maximum at 4 pages (excluding tables and images) to info@apnfm.de .

Deadline for the submission is January 25th, 2008.

Structure:

Follow this order when typing manuscripts: Title, Authors, Affiliations, Abstract, Keywords, Main text, Acknowledgements, Appendix, References, Figure Captions and then Tables. Collate acknowledgements in a separate section at the end of the article and do not include them on the title page, as a footnote to the title or otherwise.

Text Layout:

Use double spacing and wide (3 cm) margins. (Avoid full justification, i.e., do not use a constant right-hand margin.) Ensure that each new paragraph is clearly indicated. Present tables and figure legends on separate pages at the end of the manuscript. Number all pages consecutively; use 12 or 10 pt font size and standard fonts.

Abstract:

A self-contained abstract (approximately 150 words) outlining in a single paragraph the aims, scope and conclusions of the paper must be supplied.

Symbols:

It is helpful to identify Greek symbols by name in the margin the first time they appear. Abbreviations and acronyms should only be used for unwieldy terms and names which occur frequently in the manuscript.

Units:

Follow internationally accepted rules and conventions: use the international system of units (SI). If other quantities are mentioned, give their equivalent in SI.

Images/Artwork:

Images or Artworks should be in TIFF-Format with a resolution minimum of 300 dpi. Printing is done in Black and White!

Maths:

Detailed mathematical discussion should be placed in an appendix. Equations and formula should be typewritten wherever possible. Number consecutively any equations that have to be displayed separately from the text (if referred to explicitly in the text).

References:

All publications cited in the text should be presented in a list of references following the text of the manuscript.

Text:

Indicate references by number(s) in square brackets in line with the text. The actual authors can be referred to, but the reference number(s) must always be given.

Example: "..... as demonstrated [4, 5]. Steudte and Miller [2] obtained a different result"

List:

Number the references (numbers in square brackets) in the list in the order in which they appear in the text and use a common citation style.

Tables:

Tables should be numbered consecutively and given suitable caption and each table is laid out on a new page. No vertical rules should be used. Tables should not duplicate results presented elsewhere in the manuscript (for example, in graphs). Footnotes to tables should be typed below the table and should be referred to by superscript lowercase letters.

Notification:

Authors will be notified of the acceptance of their paper by the editor. The Publisher will also send a notification of receipt of the paper in production.
